Categories

Junior Small/Large	dogs under 3 years old at the time of the competition* - the difficulty of the course will be proportional to the abilities of the young dogs
Profi Small/Large	dogs older than 3 years at the time of the competition
Senior Small/Large	dogs older than 10 years at the time of the competition, or dogs with a permanent handicap (the organizer must be informed)* - the difficulty of the course will be proportional to the health condition of older dogs and dogs with health limitations.

**A dog in this age category can also compete in the Pro category. The inclusion is always at the discretion of the competitor. However, the dog can only compete in one of the categories.*

Category and relay race entry form	Google Form

**required to register for both days!*

Foreign participants must first register in the system, including registration of their dogs. If you already have an account in the system, you can register for the race straight away.

Rules of individual competitions

Friday exams	All runs will be judged according to the rules of the Hoopers Club z.s., valid on the day of the race.
Wallachian Teams run	The team consists of two members. Both dogs and handlers are on the course at the same time, each team member has their own square. The squares are spaced apart to avoid collisions. When the first of the pair runs out, the race begins and the first of the pair runs first half of the course. After the judge blows the whistle, the second handler releases the dog. The race ends when the last obstacle in the sequence is crossed. Time and faults are counted together for the team. *Relays can be run by all categories, Junior, Pro and Senior. Teams can be mixed between categories (e.g. Senior + Junior or Pro + Senior etc.). The condition is that both dogs must be in the same height category and one handler cannot run in one team with two dogs.*
Radegast Open	Open run, composed only of hoops and barrels. *This run will be run only in the Profi and Junior categories. The Junior course will have an adjusted level of difficulty.*
Plum Open	Barrel challenge. *This run will be run only in the Profi and Junior categories. The Junior course will have an adjusted level of difficulty.*
Fast and furious	Non-technical course, focused primarily on the dog's speed. *This run will be run only in the Profi and Junior categories. The Junior course will have an adjusted level of difficulty.*
Master run	Open, in which all obstacles can be used. Technically more demanding, based on the sum of both runs, the absolute winner of the Wallachian HoOPEN in each category will emerge. *This race will be run by all categories, i.e. Junior, Pro and Senior. However, each category will have a different course so that the difficulty corresponds to the given category.*
